REGULATION, HEALTH CARE AND TRADE

Dear Constituent,

I am pleased to provide you with this 1st Edition of the *Pennsylvania 7th Congressional District Federal and State Grants & Resource Directory*.

This directory is intended as a starting point for those in search of project funding. As the sources and levels of grants vary irregularly, the information in this guide cannot be comprehensive. However, it does offer a useful compendium of selected federal, state, and private funds.

An electronic version of this document will be available at my web site—www.sestak.house.gov—and it will be updated as additional grant information becomes available. I look forward to working with all local, state, federal, philanthropic, and other officials to see that every worthy project in the 7th Congressional District can successfully compete for all available funding sources.

I would like to acknowledge the efforts of State Representative Keith R. McCall (122nd Legislative District) in assembling the best single source compilation of Pennsylvania grant material my staff could find. We built on his hard work to include a wide range of other grant sources and will continue to honor his labors by keeping this volume as current and accessible as possible.

Sincerely,

Joe Sestak
Member of Congress
